

ACCELECORP

Financial Consulting and Interim Financial Management

If you require finance professionals with **commerce and industry experience** to assist you with **any finance-related project or on an interim basis** then we can be of assistance.

We have a **large resource base** of professionals that can **cost effectively deliver** the outcomes you want.

It is our aim to become the preferred provider of premium financial and management expertise to blue chip clients across diverse industries.

AcceleCorp is led by a team of Chartered Accountants with many years of experience at Senior and Executive level across many industries as diverse as:

Telecommunications **Infrastructure** **Professional Services** **Media** **IT**
Manufacturing **FMCG** **Distribution** **Public Sector**
Human Resources **Construction**

Our consultants include professionals with past experience as:

- JSE Listed Financial Directors
 - Chief Financial Officers
 - Financial Managers
 - Financial Controllers
 - Financial and Management Accountants
- across various industries.

We can provide you with immediate access to an experienced 'heavy-weight yet hands-on' manager, with a proven track record that is matched to your business specific requirements.

Our consultants are usually engaged for several months and assist businesses that are addressing a critical management gap, executing special projects that requires dedicated focus, implementing a new strategy or experiencing major transformation.

In essence we assist where either your finance department is "overstretched" or where you require a specialised financial skill that may not be available in-house.

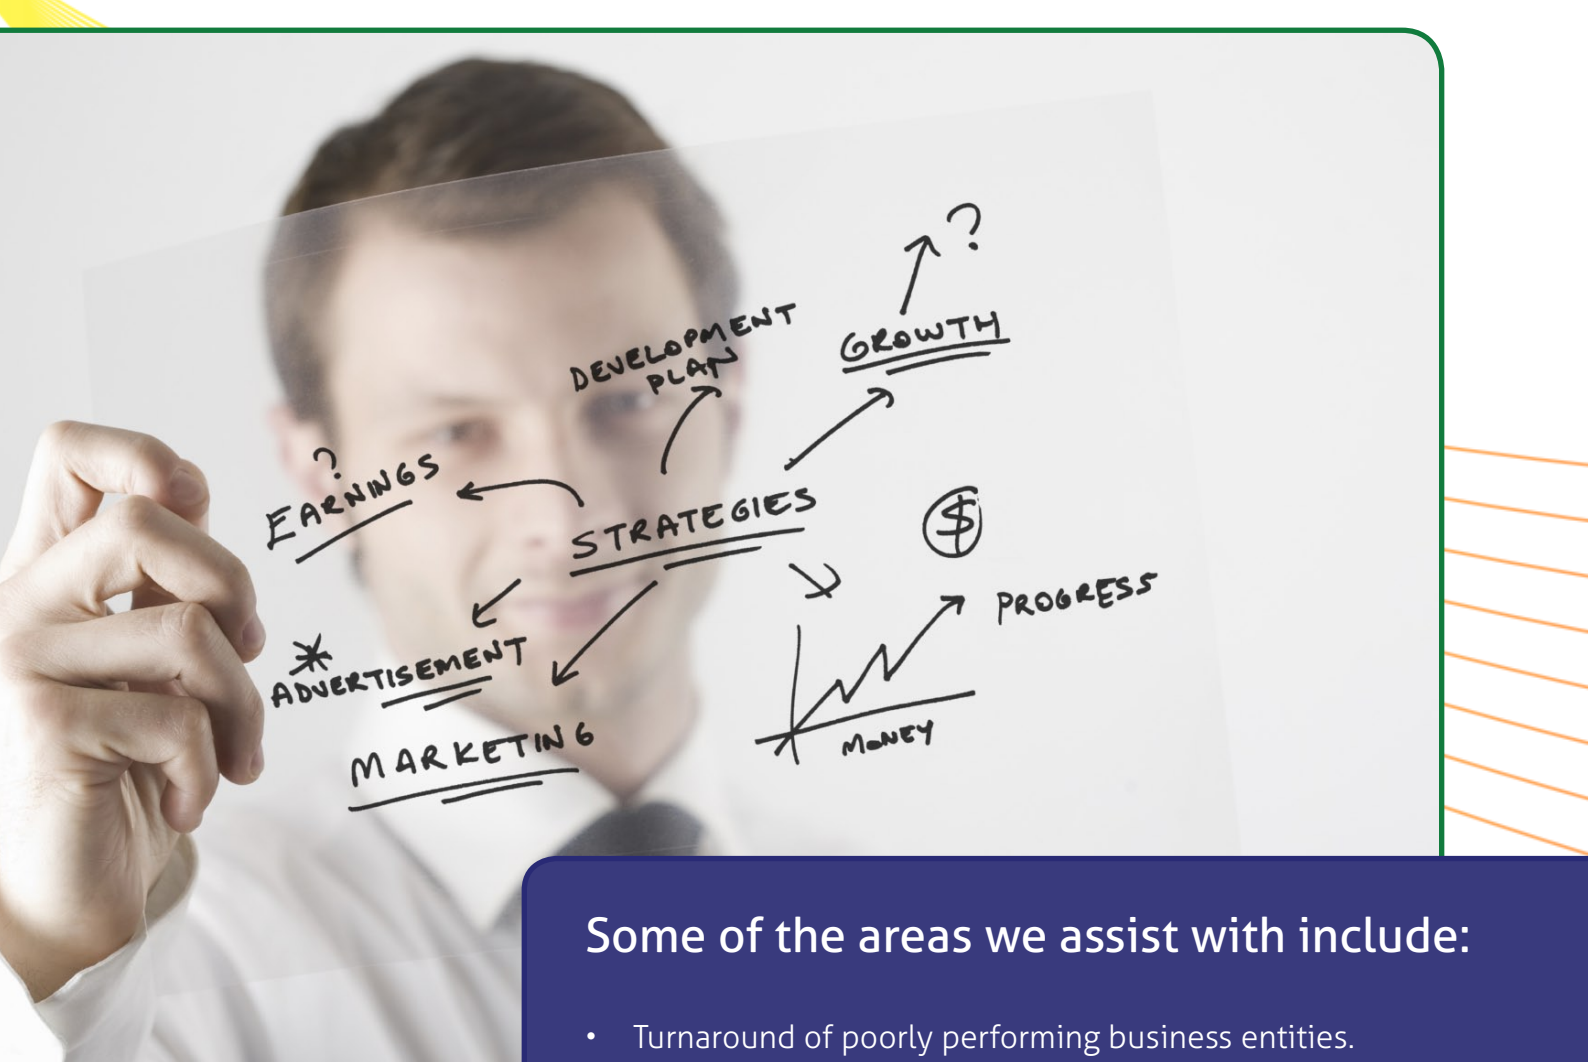

What makes us different

Lower costs and rapid deployment with no sacrifice in quality
Due to our optimal structuring we run a lean organisation, which makes our offering more cost effective than other players in the industry.

The Directors of AcceleCorp are directly involved in performance management and ensure that the highest level of quality is maintained throughout the process.

Our consultants:

- Can start almost immediately, with minimal on-boarding formalities.
- Are usually overqualified and have extensive experience to tackle your business specific challenges.
- Will transfer knowledge, skills and experience to your team.
- Have the ability to prioritise and focus on critical tasks.

Some of the areas we assist with include:

- Turnaround of poorly performing business entities.
- Optimisation of working capital.
- Addressing internal control weaknesses.
- Dealing with backlogs of processing of financial information.
- Rectifying unreliable or inaccurate management information systems.
- Business profitability analysis - analysis of business models to determine highest leverage points to improve business performance.
- Development of budgeting and forecasting models.
- Initiating and managing projects that maximise procurement savings.
- Implementation of Balance Sheet Scorecard Methodologies.
- Development of Policies and Procedures Manuals.
- Development of Financial Models including Excel VBA.
- Product Costing and Activity Based Costing Models.
- Developing Strategic Planning models and implementing Strategic Planning Processes.
- Business Process Analysis and Re-design.
- Manage financial aspects of key contracts to ensure adequate consideration of commercial issues.
- Development of Business Plans.
- Developing and implementing Project Planning and Control Processes.
- ERP Implementations.
- Establishment of Shared Service Centres.
- Due Diligence Reviews.
- Valuations and valuation modelling.
